

Excellence in Delivery

VIP's team of experts can develop a tailored solution that delivers the biggest impact on your bottom line by offering depth and breadth of expertise where you need it most. VIP hires only the best SAP consultants and uses a blended model of on-shore/off-shore resources to control project implementation and support costs. Our clients consistently profit as we deliver a level of proficiency, professionalism, and financial impact that has few rivals. Whether direct or through our respected partners, VIP customers benefit from the world's best SAP minds and methodologies. Take advantage of our investment in SAP infrastructure and expertise to service your SAP initiatives.

Challenge Boundaries

In an effort to centralize technology and business systems, companies have made significant investments in SAP® business technology. However, due to the rapidly changing market, it has become increasingly difficult to maintain business value from current SAP investments. Many organizations continue to be challenged with adapting to changing business needs, increasing proactive decision making, and improving employee performance while implementing new SAP modules and upgrading systems. Visionary Integration Professionals (VIP) helps its clients overcome these obstacles by optimizing performance, delivering new operational capabilities quickly, and maximizing the full potential of your SAP investment.

Uncover New Possibilities

Through the acquisition of MyITgroup, VIP maximizes the return on your SAP investment through effective solutions, quality people, and repeatable processes. Our solutions challenge boundaries and uncover new possibilities that leverage industry practices and create new opportunities for business expansion and profit. Implementing and harnessing the full value of all SAP technologies – mySAP Business Intelligence, NetWeaver, NetWeaver Portals, CRM, and SRM – requires superior function-oriented business processes and seamless synchronization with your existing SAP systems.

Our dedicated practices help companies extract the highest value from these applications by bringing specific product expertise required to deliver the functionality and value that each of SAP's applications offer.

About VIP

Established in 1996, VIP is a global technology and outsourcing firm that has provided solutions for over 900 clients in multiple industries as well as Federal, State, and local government. VIP helps companies challenge boundaries and uncover new possibilities to increase productivity, maximize revenue, improve performance, mitigate risk, and reduce costs. With nearly 1,000 staff, VIP offers expertise in Business Intelligence and Data Warehousing, SAP Integration and Consulting, Technology Integration and Operations, Talent and Learning Management, Quality Management, and Management Consulting. VIP's corporate headquarters is located in Folsom, California with offices in Sacramento, Minneapolis, Denver, New York City, DC Metro, Houston, Dallas, and Bangalore, India.

VIP's SAP Integration and Consulting solutions include the following:

Our clients have high expectations of us, based on our ability to repeatedly deliver only the best SAP solutions with measurable value. VIP maintains an unwavering commitment to a true practice-based Solutions model where VIP consultants share the client's need for success. We communicate clearly and realize client objectives, identify innovative value opportunities, provide flexible delivery options on top of solid strategy, and ensure responsible account management practices.

Exclusive Service Model

Operating exclusively in the SAP marketplace, VIP is one of the most trusted SAP professional solution firms supporting government agencies, global enterprises, and small to midsize businesses. Utilizing our worldwide network of SAP professionals, we provide the SAP knowledge and expertise to support any SAP environment. VIP delivers value through a trio of dedicated integration and consulting services: solutions, outsourcing, and workforce. Through this service model, VIP is establishing new best practices and delivering a new level of reach and flexibility to maximize your SAP investment.

Solutions

VIP offers solutions to analyze disparate business data, design, build and implement business strategies, connect with customers, or improve collaboration among SAP and non-SAP components. Our Solutions practice brings focused expertise to deliver the prime applications that comprise mySAP Business Suite - the SAP products that are delivering today's highest business value.

VIP offers expertise with the complete SAP project lifecycle from initial assessments through implementation and support. Whether you are defining requirements, upgrading a single application enhancement, or implementing a new module, VIP ensures that our delivered solution will align with your business objectives.

Outsourcing

VIP offers a blended outsourcing model utilizing on-shore and off-shore resources to control your project implementation and support costs. Whether we manage your critical application domestically or your development overseas, VIP delivers quality and flexibility in a global development model using its solution centers in Houston, Texas or Bangalore, India, or a blend of both.

To ensure that every detail is covered and every deadline is met, VIP assigns an on-shore coordinator who serves as a single point of contact for all your requirements and recruits SAP-focused developers. VIP operates state-of-the-art facilities, featuring 24-hour video and audio conferencing, progressive production processes, and a direct line from Bangalore to the United States headquarters. From scoping requirements to project management to implementation, our experienced professionals mobilize fast and deliver reliable solutions for your specific project or initiative.

Workforce

VIP is committed to delivering a whole new level of quality and substantial performance. With our Workforce services, you can feel secure in knowing that the most talented SAP consultants are working with you. Our sophisticated staffing database continuously tracks information on the skills, industry expertise, engagement experience, and availability of over 18,000 SAP professionals worldwide. We can define, find, and meet your needs for SAP resources faster and with pinpoint accuracy. When you hire through VIP Workforce, an industry renowned solutions expert is only a phone call away. Whether it's SAP BI/BW, NetWeaver, CRM, SRM, Enterprise Portals, or XI, our dedicated practice leaders are there to support your project.
