

Web Intelligence XI 3.0: Report Design

Business Objects Code: QA210V3.0

SAP Code: BOW310

Prerequisites

None

Duration

2 days

Audience

The target audience for this course is report designers who need to access and analyze corporate information using InfoView and Web Intelligence.

Description

- This two-day instructor-led classroom course is designed to give you the comprehensive skills and in-depth knowledge needed to access, analyze and share corporate data using Business Objects InfoView and Business Objects Web Intelligence.
- During this course, you'll learn how to organize, manage and distribute documents using InfoView.
- You'll also learn how to create Web Intelligence documents for your reporting needs, to retrieve data by building queries using Business Objects universes and to use Web Intelligence to enhance documents for easier analysis.
- After taking this course, you will be able to efficiently and effectively manage personal and corporate documents to access the information you need, when you need it.
- You will be able to design your own reports using Web Intelligence and share your analysis with other users.
