SAP Code: BOC320

Prerequisites

Prerequisite Education

- You should have completed Crystal Reports 2008: Report Design I - Fundamentals of Report Design.
- If you have taken a previous version of Report Design I - Fundamentals of Report Design, then you should have completed Crystal Reports 2008: Quickstart.

Prerequisite Knowledge

To be successful, you must have working knowledge of:

- Windows conventions
- Basic database concepts
- Experience using a web browser

Duration

2 days

Audience

The target audience for this course is report designers who are responsible for creating and distributing reports and have completed Crystal Reports 2008: Report Design I - Fundamentals of Report Design.

Description

- Crystal Reports 2008® is a powerful, dynamic, actionable reporting solution that helps you design, explore, visualize, and deliver reports via the web or embedded in enterprise applications.
- This two-day instructor-led course is designed to give you comprehensive skills and in-depth knowledge to plan and create reports that will help you analyze and interpret information.
- As a business benefit, you will be able to increase your understanding of formulas, variables, arrays, templates, parameters, summaries, and sections. This course will also help you make more effective report design decisions and create more efficient reports.

Content
