VIP Texas HUB Alliance

Offering Information Technology Services to Texas agencies through a network of Historically Underutilized Business partner companies

About DBITS

In response to the award of a Texas Department of Information Resources (DIR) Deliverables-Based IT Services (DBITS) contract, Visionary Integration Professionals LLC (VIP) formed the VIP Texas HUB Alliance. Texas DIR offers DBITS to Texas governmental and public educational entities through the Go DIRect Program. Deliverables-based IT services may be obtained using this streamlined procurement vehicle. Through a simple Statement of Work, DBITS can be used to procure services up to \$10M in value. Ordering instructions are found on the Department of Information Resources Go Direct Website at <http://www.dir.state.tx.us/store/busops/dbits/index.htm>.

About VIP

Established in 1996, VIP is a global technology and outsourcing firm that has provided solutions for over 900 clients in Federal, State, and local government as well as Fortune 1000 clients. VIP helps government and education agencies challenge boundaries and uncover new possibilities to increase productivity, maximize revenue, improve performance, mitigate risk, and reduce costs. With nearly 1,000 staff, VIP offers expertise in project and program management, ERP Integration and Consulting, Technology Integration and Operations, Management Consulting, Business Intelligence and Data Warehousing, Talent and Learning Management, and Quality Management. VIP's corporate headquarters is located in Folsom, California with offices in Sacramento, Minneapolis, Denver, New York City, DC Metro, Houston, and Bangalore India.

Service Categories

The VIP Texas HUB Alliance is qualified to provide services in Texas under the DBITS contract in support of project management, enterprise resource systems and application development.

✓ Project Management

Strong project management is one of the vital necessities and key success factors in any project. The HUB Alliance helps mitigate the risk of project failure by providing tailored Project Management solutions to meet the unique needs of its clients. Solutions include PMO deployment, hands-on project management, earned value definition and management, portfolio management, feasibility studies, procurement support, quality assurance and oversight.

✓ Enterprise Resource Planning (ERP)

The HUB Alliance delivers high-quality professionals, application solutions and outsourced services covering back office functions such as financials, human resources, learning management and asset management. Whether you are defining requirements, upgrading a single application enhancement, or implementing a new module, the solution we deliver will align with your business objectives.

✓ Application Development

HUB Alliance services include software design, development and implementation; maintenance and operations, testing and quality assurance, as well as reporting and analytics. The teams expertise extends to network and telecommunications applications and infrastructure and human-computer interface. We can support specific projects tasks or an end-to-end project.

VIP Texas HUB Alliance

VIP Texas HUB Alliance Partners

VIP has established an alliance of Texas-based companies to deliver DBITS services throughout Texas. Just as the State HUB Program is designed to facilitate the participation of minority and women-owned businesses in procurement opportunities, VIP seeks that same participation through this alliance. VIP intends to involve one or more HUB partner in each opportunity we pursue.

Partner companies are selected based on the services they offer, geographic coverage, depth of public sector experience, and reputation. Today, the team includes the following Texas HUBS:

AES Technology

Leadership Living, Inc.

Prescott & DeWitt, LLC

Debra Deloian MPA, Inc (DDI)

**C&T Information
Technology Consulting, Inc.**

Prologica, LLC

CES Network Services, Inc.

With the Grain, Inc.
